DETAILED ACTION

1. A pre-appeal brief request for review was received on 03 March 2008. As per the notice of panel decision mailed 18 April 2008, as a result of the pre-appeal brief review conference, the previous rejections have been withdrawn and prosecution has been reopened in the present application.
2. Claims 1-14, 25-31, 35, and 37-56 are currently pending in the present application.

Response to Arguments

3. As noted above, Applicant's arguments, see the pre-appeal brief request for review, filed 03 March 2008, with respect to the rejection of Claims 1-14, 25-31, 35, and 37-56 under 35 U.S.C. 103(a) have been fully considered and are persuasive. The rejection of the above claims has been withdrawn.

Allowable Subject Matter

4. Claims 1-14, 25-31, 35, and 37-56 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Independent Claims 1, 13, 25, 30, 35, 37, 38, and 50 are directed to methods, apparatus, and software implementations of methods for authentication of a mobile

Art Unit: 2137

client to a communication system that is separate from a mobile telecommunication network that a separate mobile station is associated with. The closest prior art, as previously cited, Berggren, Turtiainen, and Bilgic, are also generally directed to various aspects of authentication of a mobile station and/or mobile client and using challenge/response protocols for such authentication. However, none of Berggren, Turtiainen, and Bilgic teaches or suggests, alone or in combination, the particular combination of steps or elements as recited in the independent claims. For example, none of the cited prior art teaches or suggests the step, in independent Claim 1, of receiving a subscriber identity that was specifically sent from a mobile station, where the mobile station is separate from the mobile client receiving the identity. Therefore, the claims are allowable over the cited prior art. As noted above, applicant's arguments in the pre-appeal request for review filed 03 March 2008 were persuasive, with particular regard to Applicant's contention that the cited prior art does not disclose the above-noted limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- a. Lemiläinen et al, US Patent 7313381, discloses a system in a public ISP network using SIM based authentication for payment.
